EDUCATION

Sri Shakthi Institute of Engineering and Technology
B.E. Computer Science Engineering
(Cyber Security): CGPA: 7.93/10

Sep 2023 - Sep 2027
Coimbatore, India

Infant Jesus Matriculation Higher Secondary School
HSC: Grade: 82.6%

Devakottai, India
June 2022 - Apr 2023

SKILLS

- **Programming Languages:** C, Java, Python, JavaScript
- **Frameworks:** Flask
- **Tools & Tech:** Git, Linux
- **Front-End:** HTML, CSS, JS, Flutter
- **CyberSecurity-Tools:** Wireshark, NMap
- **Graphic Designing**

PROJECTS

Automated Vulnerability Assessment and Penetration Testing for Web Applications | Burp Suite, OWASP Top ZAP, Python: Oct 2024

- Created a tool to scan web applications for security issues like XSS and SQL Injection using Python, Burp Suite, and OWASP ZAP.
- Saved 60% of testing time by automating scanning and validation steps.
- Wrote easy-to-understand reports explaining each problem, its impact, and how to fix it.
-  Link: [vulnerability scanner](#)

Vulnerability Scanner for Files

April 2024

- Built a File Vulnerability & Malware Scanner using Python and Flask to detect malicious code and vulnerabilities in uploaded files.
- Automated file analysis and provided instant results, reducing manual inspection efforts by ~65%.
- Designed a Flask-based frontend for users to upload files and view detailed security reports.
- Generated clear, actionable reports highlighting detected threats, potential risks, and recommended fixes.

FarmerApp for Farmers

Jun 2025

- Developed a Farmers Assistance App using Flutter to help farmers access vital agricultural information • Integrated features for real-time weather updates, nearby agriculture store locator, and government schemes.
- Built an easy-to-use mobile interface to improve accessibility for farmers with minimal technical knowledge.
- Enhanced farmers' decision-making by providing reliable and localized information in one platform.
